Double Thick Reveal Card FG EU 6100

bend with thumb

EXCITING AND INTERACTIVE

Double Thick Reveal Card FG EU 6100

Application option	The removable front panel is a fun and interactive way to engage your customer and reveal graduation announcements, engagement photos, baby pictures, contest winners, and any other static or variable data you choose. And at twice the thickness of a typical “thick” postcard, the Double Thick Reveal Card will catch the eye and the fingers of your prospects and dramatically increase response rates.
Format	The Double Thick Reveal Card is die cut with a secure window and each sheet produces 2 cards: 212 x 125 mm (2 Cards, Folded Size) 460 x 320 mm (Sheet Size).
Paper	270 g/m ² with cohesives on the back and a perf down the center.
Extra	After printing, the sheets can be UV coated on the outside to add gloss and protection.
